

How the Greeks Created the Golden Age of Innovation

*The Secret Code that's been lost for two thousand years
What we can learn and use to trigger massive innovation*

Robert Porter Lynch

Learn what the Greeks discovered over 2000 years ago that unleashed an unprecedented & unexcelled level of new science and invention, including:

- **The First Computer**
- **The First Steam Engine**
- **The First Railroad**
- **The First Vending Machines**
- **The First Water Mill**
- **The First Geared Clock**
- **The First Accurate Calculation of World's Circumference**
- **The First Ballistic Missiles**
- **The First Air & Water Pumps**

**Learn not only *What they Discovered & Invented*,
but *How they Masterminded Innovation***

This presentation is both educational and fun.
